What is This About?

While doing public consultation for the MDP, Town staff heard from many Redcliff residents about the need for a skatepark in Town. Redcliff Town Council responded to this desire and allocated money in the 2019 budget to start developing a skatepark.

Skaters in Redcliff currently go to Medicine Hat or find suitable streetscapes within Town to practice their sport. We want to create a designated area for people to skate, one that is easily accessible and acts as both a recreation facility and a gathering space. The end goal is to create a welcoming community space that allows skaters and other recreational users from all ages and ability levels to enjoy their sport within Town.

We are just starting this project, and want to hear your ideas for a skateboard park! Check out the boards in the Open House to share your ideas for a skatepark location and skatepark features!

Want to stay involved? Ask a Town staff member about volunteering for the Skatepark Advisory Board!
