CREATIVE SOLUTIONS FOR ECONOMIC GROWTH

Medicine Hat . Redcliff . Cypress County . Bow Island . County of Forty Mile . Medicine Hat . Redcliff . Cypress County . Bow Island . County of Forty Mile . Medicine Hat

Chairman's Message

The Economic Development Alliance (EDA), led by our new Executive Director, Wendy Blackwell, has continued to implement the organization's three year strategic plan. The EDA has been implementing new projects and maintaining the momentum of existing programs some of which concluded during 2012. New staff, new technology and new innovative and created approaches are continually being introduced as the EDA projects the advantages of Southeast Alberta to wider audience.

The Board of Directors and the EDA Advisory Committees have met regularly to bring forward great ideas directly from the member communities and business industry sectors. This year the EDA Board became more hands-on as the Executive Director position transitioned from Caroline Grover to Wendy Blackwell; it was also needed during the formation of the Board of Directors' Bylaw Subcommittee. The extra time and effort required by the board during these times was greatly appreciated.

I would like to recognize the Chairs of the Advisory Committees for their extra time and commitment: Bruce Corraini of the Energy Committee; Ron Edwards of the Transportation Committee; and Perry Deering of the Agriculture Committee. The Committees have been dedicated to supporting the EDA's activities, lobbied for change and sponsored several significant educational events. They are a talented group of business leaders and we appreciate their willingness to share their knowledge with us.

A special note of thanks goes to Ron Edwards. Ron was the Chairman of the Board of Directors for the EDA since 2001 up until May of this year. He provided countless hours of support and assistance to the organization; his dedication is appreciated by everyone involved with the EDA as well as all of the EDA's member communities. Ron has continued to stay on the Board as a Director.

Yours truly,

Randy Lehr, Chair, Board of Directors Economic Development Alliance of Southeast Alberta (EDA)

Executive Director's Message

2011 marked the ninth year of operation of the EDA and the departure of Caroline Grover mid-year in the Executive Director's position. I took over the Executive Director role in mid- September 2011 and since that time the organization has seen both change and growth in the scope of its work. The EDA now employs five full-time staff members in addition to the Executive Director position who assist in fulfilling its economic development mandate for the Southeast Alberta region. Operating with a full staff contingent as well as taking the EDA to the next level in reach of its economic development activities have given the organization a re-energizing focused approach and attitude.

The EDA welcomed a new board chair in May 2012; Randy Lehr took over the position from Ron Edwards who had been the chair the EDA board since 2001. Randy Lehr represents Cypress County. Previously, Randy chaired the EDA's Agriculture committee, has sat on the Medicine Hat College board and also currently serves on the board at the Women's Shelter.

Within the EDA's three core areas of business (Business Retention and Expansion; Investment Attraction; and Marketing and Communications) we have focused our on supporting a number of key industry sectors: agricultural and greenhouses; advanced technology and manufacturing; energy including renewables; and tourism.

This time last year, I presented the EDA's three year strategic plan. I also proposed three key performance indicators (KPIs) as some tangible results on which to measure results of the EDA's activities. The KPIs reflected the activities under the three core areas of business. As I review the files and projects successful completed by the EDA in 2011-2012, I look back on the number of accomplishments the organization has achieved in successfully fulfilling its mandate. The details I have incorporated into each of the appropriate sections of this annual report.

The results against the three KPIs proposed in 2011 are as follows:

Business Retention and Expansion:

Our KPI for this area of work committed the EDA to assisting over 100 businesses in the next three years. During 2012 alone we have worked with 47 regional businesses. We are well on track to exceed our target.

continued...

T 403.488.7015 F 403.488.7017 E info@edalliance.ca www.edalliance.ca #28, 419 3rd Street SE Medicine Hat, AB T1A 0G9

Investment Attraction:

Last year the EDA committed to 10 new investment attraction leads each year. With our increased focus in this area during the second half of the current year I'm pleased to report a total of 17 new leads to date in 2012.

Marketing and Communications:

We proposed to increase our traffic to the website by 25% in 2012

Actual numbers of website visits:

2011:8801

2012: 12541 * An increase of 37.4 %

With the launch of new web site and branding for 2013 we feel that the further increases in traffic will be of a similar level.

Collaborative partnerships were developed and fostered through event sponsorship and committee participation on initiatives of a mutual and regional interest.

A special note of thanks to our Advisory Committees and the Board of Directors for their dedication to the EDA. The industry knowledge and broad regional interest base that they bring to the organization serve to guide and assist the staff with driving economic growth to the region.

Thank you.

Wendy Blackwell Executive Director

Ron Edwards	Medicine Hat Exhibition & Stampede Association
Doyle Brandt	Sunset Greenhouse
Bob Nemeth	Coast to Coast Reforestation
Vivienne Pancoast	V&V Farms
Larry Johnson	MNP
Ron Galbraith	NaturEner Canada

THREE CORE AREAS: ACTIVITIES AND RESULTS 2012

BUSINESS RETENTION AND EXPANSION (BR&E)

In this core area two major programs completed during 2012:

- National Research Council Canada and the Industrial Research Assistance Program (IRAP), was a
 federally funding program that fully funded a full time innovation facilitator to work within the
 region. The mandate of this program was to work with regional businesses, assisting them to
 grow by increasing efficiency, leveraging innovation and new technology. The program
 completed in March 2012 and during its two years in operation the facilitator assisted 80 local
 businesses. Primarily in the manufacturing and technology sectors. This work is continuing
 through the EDA's collaboration in APEX, the regional innovation network. Partners in this
 network include: Community Futures, PEP, Medicine Hat College and the Government of
 Alberta.
- Rural Community Adaptation Program (RCAP), was a provincially funded by the Ministry of Agriculture. The program that was aimed at assisting rural businesses with innovative initiatives. The program concluded in June 2012. Over 24 months the program worked one-onone with over 50 rural businesses and financially supported the launch of Southeast Alberta's eat local initiative; "Savour the Southeast" website, its online directory, blog and twitter feed.

During 2012, the EDA took on a major role in coordinating the annual Country Cruzin' event; a wellestablished agri-tourism event, in its fifth year, that encouraged participants to "cruz" Highway 3 between Medicine Hat and Bow Island. The tour had a variety of suggested stops both at agriculture producers and tourism venues. Approximately 100 people participated in this years tour. This initiative was supported financially by RCAP and by obtaining local sponsorship. Funding sources have been identified to support this event in 2013 and shared with our partners.

The EDA contracted a Sponsorship Coordinator to approach local businesses and seek financial contributions to support the organizations agriculture initiatives in 2012. Over \$19,500 was raised in sponsorship money. These funds not only assisted with the support of the events mentioned above but also enabled the EDA to host Training the Next Generation 2 (TTNG2). TTNG2 had renown speakers and supported the agriculture sector by providing innovative ideas and perspectives on how to deal with succession planning issues with family owned businesses. This event received excellent post-event survey ratings and was attended by 125 people.

The EDA has collaborated with our regional partners to support two Mount Royal university BR&E survey during 2012. The survey were circulated to businesses in Bow Island and Medicine Hat. This work with continue and be expanded to other areas during 2013.

APEX (the southeast Alberta regional innovation network) is a BR&E focused collaboration of local economic development organizations. The network is still in its early days but is already demonstrating

the results of working together to provide the local businesses with the most appropriate avenues of support.

Community Infrastructure Improvement Fund (CIIF) Grant Application was submitted during 2012 to support some infrastructure improvements to a Cypress County business. To date, we are still waiting for the outcome of this application.

The EDA has also supported the Penn Show, the Petroleum Show and will exhibit at December's Farming Smarter event. The Farming Smarter event will provide the EDA with the opportunity to raise awareness of Training the Next Generation 3, scheduled for February 2013.

INVESTMENT ATTRACTION

January 2012 commenced with notification of the approval of the EDA's Invest in Canadian Communities Initiative (ICCI) application. The mandate for the ICCI program is to support initiatives that encourage foreign investment from key international markets. The EDA received nearly \$68,000 to support the following initiatives that the organization proposed in their application:

- Unmanned Vehicle Systems (UVS) Media Tour; held in August, the day long event brought key
 national and sector specific media outlets to southeast Alberta. The media were able to
 experience first hand the unique facilities for testing and developing unmanned vehicles within
 our region. DRDC, CCUVS and Meggitt all worked collaboratively with the EDA to make this day
 a success. Media enjoyed displays, presentation and had the opportunity to experience first
 hand some of the R&D work happening at Suffield. During the evening reception the attendees
 had presentations on the use of UVS in operations within the Ontario Provincial Police; the use
 of UVS in the oil an gas sector for pipe line surveillance and the opportunities developing in
 Foremost, Alberta. Post event the region had excellent media coverage on CBC, CBC National
 Radio, Canadian defence review and Vanguard.
- UVS Virtual Tradeshow *iUVS Virtual Con 2012;* November 29th, 2012. An innovative and creative approach was decided upon by the EDA to support a technology driven sector consisting of primarily small and medium sized enterprises. The objective of the event is to raise awareness of the unique facilities of the region and to attract more of the cluster to relocate or expand with our area. Virtual Conferences have a few distinct advantages over traditional trade shows:
 - there is no travel involved therefore no time away from your business and reduced overheads
 - detailed "return on investment" analytics on the event provided
 - the conference material and virtual show is accessible online for 3 months following the "live" day.

The event received support from the Government of Alberta and the UVS national association - Unmanned Systems Canada.

- Bio-Energy Opportunities; ICCI provided funding to the EDA to support identifying the
 opportunities that exist for the region in the bio-energy field. This sector is continually
 developing with new technology coming on stream. It was felt that if we were to position
 Southeast Alberta as an preferred option for potential investors we needed to fully understand
 both the opportunities and the limitations. Phase I Feasibility Study identified three
 opportunities to focus upon.
- Bio-Energy Phase II, Investment Attraction Strategy; has taken the three opportunities from phase I and identified the key steps for the EDA to undertake in order to make this region the best choice for potential bio-energy investors looking to expand operations within these three areas. The EDA have one European investor looking to visit our region in January 2013.

The results and opportunities identified through this report will be shared by webinar early in 2013.

*2012 ICCI funding was the largest amount received by the EDA to date.

To raise awareness of our bio-energy opportunities and to build connections EDA has sent representation to Trash to Treasure Event in Edmonton and a bio-energy symposium in Calgary.

In January 2012, the EDA also obtained approval of an funding application submitted through Medicine Hat College to Alberta Rural Development Network (ARDN). The funding received through the program was \$20,000, the maximum available. The funding was provided to support the EDA and the College in hosting the first, Renewable Energy Conference to be held in Western Canada. Renew West was held in April 2012 and was attended by over 100 people. The conference was marketed internationally, secured high profile key note speakers, educated and created awareness of renewable energy opportunities in southeast Alberta. Since the conference the EDA has received three new investment attraction leads that are currently looking towards our region for their next move with their solar projects.

EDA hosted a booth at the Medicine Hat Ports – To – Plains event. The event proved beneficial for building some USA connections that supported our work with Unmanned Systems and Bio-energy.

EDA has identified a Paris-based organization and an annual event that links European based investors with large scale projects. EDA are currently speaking to key local business people about this opportunity. European investors are currently seeking new investment opportunities within North America in order to diversify their portfolios away from Europe with the current uncertainty and instability. The Mayor of Medicine Hat has been invited to speak at the annual conference in March.

MARKETING AND COMMUNICATIONS

2012 has been an exciting year for the EDA's marketing and communications initiatives. In line with our strategic objectives we continue to develop new tools and marketing collateral containing pertinent and up to date information to support local businesses and promote the southeast Alberta region.

We have evolved our approach to incorporate the key business-to-business social media tools. The EDA continues to be very active on LinkedIn, Twitter, YouTube and Flicker. Our marketing and communications specialist has obtained Social Media Certification and will be incorporating these learning's into the EDA's activities and drive the organization's e-strategies.

To support our 21st Century approach we have invested this year in refreshing the EDA brand. Developing a new, clean, professional logo and colour schemes that captures the modern approaches being incorporated into our business activities. The new branding will be rolled out over the next few weeks as the new business focused web site nears its completion.

The new web site has been designed by an organization based in Ontario who has a proven track record of developing economic development web sites. The site incorporates new functions required by today's business world. It will be mobile-friendly; have social media connectivity; will adapt for people with certain disabilities and provide the EDA with tools to do online surveys, polls and capture leads.

Quarterly newsletters, sector specific newsletters along with statistical updates have continued to be a staple distribution. Distributed electronically, circulation numbers for these materials continue to increase.

To assist with our increasing focus on investment attraction a new Geographic Information System (GIS) has been developed. This comprises of a database of vital information sources that a potential investor requires in order to make an informed decision on a location. The system will form part of the new invest and locate section on the new website.

For the EDA's creation of the Savour Southeast brand, website, online directory and marketing materials the team received a marketing award from the Economic Development Association of Canada (EDAC). The EDA team were winners under the category for "Brand and Brand Identity". The EDA competed against approximately 130 entries from Economic Development Organizations nationwide.

The EDA's marketing materials and campaign to support the BR&E Country Cruzin agri-tourism event received acclaim as it was nominated as one of only three finalists in the Travel Alberta Marketing Awards. The ALTO Marketing Excellence Awards recognize creative marketing campaigns that encourage travel to, and within, Alberta. The emphasis is on original and effective campaigns that push the boundaries of common current practices and result in greater than expected return on investment.

EDA was also nominated for the Chamber of Commerce Awards under the Marketing Excellence category; in addition, the chamber has nominated the EDA's submission for the Provincial Business Awards for 2013 under a similar category.

During 2012, we placed an article and an info graphics advertisement in the Canadian Real Estate Magazine – the top 100 places to do business, titled "Urban Living with Rural Benefits".

EDA produced a one-page info graphics on Medicine Hat, to be used as a component of an investment attraction package. After receiving excellent and very positive feedback on this document, for 2013 the EDA would like to develop similar documents for the remainder of our region.

To support BR&E EDA worked in partnership with Shaw TV to produce ten segments showcasing local restaurants and innovative businesses.

During the summer EDA worked collaboratively with our economic development partners and the Federal government's - Start Up Canada team. This team had been formed federally to travel across Canada to identify needs to support entrepreneurship. The EDA team coordinated the local marketing and worked on pulling together a local event that was held at Weddingstar.

Business Retention & Expansion (BR&E)

The EDA has committed to strategic initiatives which expand on concepts that are aligned with our key sectors. Training the Next Generation 3 (TTNG3), an "Eat Local Week" and the Fort McMurray initiative "Keeping it in Alberta" are going to strengthen the opportunities within the community.

- TTNG3 is an information conference with a variety of experienced, high profile speakers who will provide different takes on business succession planning, a very important topic when encouraging regional retention and expansion.
- The "Eat Local Week" is a chance to emphasize the relationship between the producer, consumer and retailer. Raising awareness of our local agriculture and promoting those participating outlets who showcase these products.
- "Keeping it in Alberta" is set to embrace the wide variety of skilled oil and gas avenues Southeast Alberta (SE AB) is home to. By highlighting the existing and potential relationships which currently reside in our region we hope to encourage the utilization of our local labor and resources. These could prove to be a much more cost effective source for the Fort McMurray region and would encourage more long-term, sustainable employment opportunities for SE AB.

Investment Attraction

In the upcoming year the EDA will be working on the nurturing and developing further of some previously identified leads. This process will emphasize relationship building, regional promotion, collaboration with other industry experts and facilitating with potential partnerships. By committing our efforts to foster sustainable growth opportunities, we are promoting the long term vision of our region.

- Our bio-energy feasibility findings will be streamed on the first ever webinar hosted by the EDA. Research experts, provincial government representatives and potential investors will all be brought together to here of the exciting ventures which have been identified. This event will encourage interaction from various parts of the sector and between a variety of different interest groups.
- EDA will continue to prioritize renewable energy networking events, as we see these as being strategic opportunities to grow and develop staff knowledge, expand industry connections and promote the research which has taken place in our region.

• Investment attraction will align strategically with our marketing and communications and key tools and packages will be development to position the southeast Alberta advantages to potential investors.

Marketing & Communications

Leveraging the momentum from the launch of the EDA's new brand and website we will focus on driving traffic to our wide variety of online and social media outlets.

- By developing and implementing a new social media strategy we will be taking a proactive role in what has been regarded as one of the most effective and cost efficient forms of communication.
- We will also be updating the marketing and communications plan to reflect the evolving and progressive direction of the EDA.
- In correlation to our focus on collaboratively relationship cultivating we will be emphasizing our ability to create unique marketing campaigns to assist local businesses. This exercise will play a vital role in BR&E and investment attraction.

21st Century Office Developments

Client Records Management (CRM)

A customized cloud based software program designed to document and track interaction between the EDA and businesses. This software will be unique to our region, our key sectors, our core areas of business and will allow the EDA to monitor all of our interactions with various different organizations. Client records will be created and maintained throughout the process of interaction. This tool will allow the EDA to provide accurate, consistent and up-to-date quantifiable information in respects to all of their client interactions. Trends can be identified and areas of opportunity will be more easily recognizable. This new program will be an instrumental role in the service provided to the region.

2013 Key Performance Indicators (KPI's)

1) Business Retention & Expansion

Metric A: Minimum number of 35 existing business the EDA has assisted during the year Metric B: 25 supportive testimonials or surveys from regional businesses where the EDA and their collaborative partners have made a difference.

i. Data will be collected through the use of a CRM (Customer Relationship Management) tool; online polling via the EDA's new website; as well as feedback forms received

2) Investment Attraction

Metric A: 15 new investment attraction leads each year

i. Data will be collected through the use of a CRM as well as from municipalities and collaborative partnerships (e.g. APEX)

3) Marketing & Communications

Metric A: Lead Generation – marketing activities will raise awareness of southeast Alberta and increase the number of leads that are generated for action by the business team.

- i. Traffic to the website increase by an additional 25% during 2013 Measurements by Google Analytics
- ii. 25 "Contact Us" forms submitted through the website for action
- iii. Number of marketing campaigns (including social media) to support core activities
 Data for points ii and iii will be collected through the use of a CRM and google analytics to measure success of each campaign.

TOWN OF REDELIFF FINANCE DEPT.

MINUTES OF THE COMMITTEE OF THE WHOLE MONDAY DECEMBER 10, 2012, 5:30 P.M. TOWN COUNCIL CHAMBERS

PRESENT:	Mayor: Councillors:	R. Hazelaar C. Brown, C. Crozier, D. Kilpatrick, E. Reimer, J. Steinke
	Municipal Manager:	D. Wolanski
	Manager of Legislative and Land Services	S. Simon
	Director of Finance & Administration	R. Osmond
	Public Services Director	D. Schaffer
	Accounting Technician	M. Davies
ABSENT:	Councillor: Manager of Engineering	E. Solberg K. Minhas

1. GENERAL

A) CALL TO ORDER

Mayor Hazelaar called the meeting to order at 5:34 p.m.

B) ADOPTION OF AGENDA

Councillor Crozier moved the Agenda be adopted as amended. – Carried.

2. MINUTES

Councillor Crozier moved the minutes of the Committee of the Whole meeting held November 26, 2012 be adopted as amended. – Carried.

3. NEW BUSINESS

A) Policy 32, Property Lease Policy

Committee reviewed the proposed revisions to Policy 32, Property Lease Policy. As previously discussed, changes were made to amend the wording in the policy so that non-residents would be permitted to have a grazing lease. Administration is also proposing that the other lease types referenced such as garden, residential and commercial be removed as they are no longer applicable. The Policy would be renamed to Policy 32, Grazing Lease Policy. Committee discussed the changes and suggested some other wording changes.

ACTION: Administration to incorporate the changes to proposed Policy 32, Grazing lease Policy and present to Council for consideration.

- B) Bylaw 1733/2012, Subdivision and Development Appeal Board Bylaw Committee reviewed proposed Bylaw 1733/2012, Subdivision and Development Appeal Board Bylaw. Changes included grammatical fixes, position title corrections and the stated fee for the appeal was removed and instead reference was made to refer to the Rates Policy. Changes were also made to ensure consistency with the MGA. Some minor changes were suggested.
- **ACTION:** Administration to prepare revisions as discussed and forward bylaw to Council for consideration.

C) Bylaw 1734/2012, Municipal Planning Commission Bylaw

Committee reviewed proposed Bylaw 1734/2012, Municipal Planning Commission Bylaw. Changes included grammatical fixes, position title corrections and the fee for special meetings is removed and a reference added to refer to the Rates Policy. Councillor Brown questioned several sections and suggested that the definition descriptions, numbering and wording should be consistent in all bylaws. Councillor Brown also suggested the Municipal Planning Commission be given opportunity to review the bylaw prior to being presented to Council.

ACTION: Administration to prepare revisions as discussed and forward bylaw to the Municipal Planning Commission for comment.

D) Bylaw 1648/2010, Building and Development Permit Bylaw

Committee discussed Bylaw 1648/2010, Building and Development Permit Bylaw. Municipal Manager indicated this bylaw is not required as development permit fees are proposed to be included in the Rates Policy and the Town presently does not issue building permits. Municipal Manager further confirmed that should the Town want to become accredited once again in the building discipline that a bylaw is not required.

ACTION: Bylaw 1648/2010, Building and Development Permit Bylaw be presented to Council for consideration to repeal.

E) Town Pins

Mayor Hazelaar questioned if there was interest in purchasing Town pins. Committee confirmed they would be but would like some nicer better quality pins.

4. A) #22 1 Street SE

Re: Proposal for Easement

Committee discussed the property at #22 1 Street SE. They were provided with an aerial photo and Land Titles mapping which confirms that the size of the lot identified on real property report is correct. This property does extend further into the laneway than the ones to the south. Discussion ensued if the Town had any need or interest to attain a portion of the lot for a right of way. Committee did not see any need for it but suggested that Administration have further discussions with the owners to ascertain what they were seeking.

5. IN CAMERA

Councillor Kilpatrick moved to meet in Camera at 6:34 p.m.

Mayor Hazelaar, M. Davies, and D. Schaffer left the meeting at 6:34 p.m.

Councillor Kilpatrick moved Committee meet in regular Committee at 6:38 p.m.

6. ADJOURNMENT

Councillor Crozier moved the meeting be adjourned at 6:38 p.m.

Chairman

Manager of Legislative and Land Services

Redcliff Family and Community Support Services Board Tuesday, January 8, 2013 at 7 pm Town Office Meeting Room, Downstairs

Present:Diane McNaughton, Ernie Reimer, Sam Wertypora and Cindy MurrayAbsent:Ann Pudwell

1. CALL TO ORDER

The meeting was called to order at 7:07 pm.

2. ADDITIONS/DELETIONS

Add: 8.2 Program Funding Request

3. APPROVAL OF THE AGENDA

The agenda was approved as amended. CARRIED.

4. APPROVAL OF THE MINUTES

The notes from the September meeting were reviewed and approved. The minutes from the November 28, 2012 and December 3, 2013 minutes were also reviewed and approved. CARRIED.

5. BUSINESS ARISING FROM THE MINUTES

Council approved the grant funding as recommended by the Board. Cheques were sent to organization prior to December 31, 2012.

6. OLD BUSINESS

6.1 Policies and Procedures None.

6.2 Medicine Hat Family Services

The original Medicine Hat Family Services grant application was not approved in December. Board members did approve the amount of \$2000 to cover the cost of Redcliff citizens attending group counseling sessions and to provide some funding for low income families who would not otherwise receive a reduced rate for individual counseling.

6.3 Parents and Caregivers of Children with Special Needs

The Parents and Caregivers of Children with Special Needs, also known as Superheroes Anonymous asked for reconsideration of their grant application. The application in December was not approved at that time because it to be ascertained as to whether or not a group must be a registered society to receive funding and also because the overall request was outside of what FCSS can fund.

Groups do not have to be registered societies to receive funding but FCSS funds cannot be used to assist for the program that was described in the Parents and Caregivers of Children with Special Needs grant application. The overall intent of the project qualifies but the application will have to be revised.

7. DIRECTORS REPORT

Community Services has prepared and circulated a brochure with details of programs and events that have been arranged for January to April, 2013. This will be sent to the various locations in the community and available online. Brochures will be produced on a seasonal basis.

8. NEW BUSINESS

8.1 Election

Tabled to next meeting.

8.2 Program Funding Request

Deanna Arelis from the Medicine Hat College has arranged for a Newcomer Support Program to be held at I.F. Cox School from January until March, 2013. This program will assist newcomers by reducing social isolation and developing coping skills. The funding request is for \$1872.00 for refreshments, mileage and additional staff if required. The funding will not be provided unless required and upon the receipt of an invoice.

9. UPCOMING CONFERENCES/WORKSHOPS/MEETINGS

9.1 Redcliff Improvement Partnership (R.I.P.) Redcliff February 4

10. CORRESPONDENCE

- **10.1** Letter from Minister Hancock Social Policy Framework
- 11. NEXT MEETING February 12, 2013

12. ADJOURNMENT

Meeting was adjourned at 7:19 pm.

<u>REGRETS</u>: Bruce Corraini

<u>STAFF</u>: Wendy Blackwell Nichola Kondra Natasha Ruskowski

1. Call to Order 8:00 a.m.

2. Welcome to the New Board Member

Introduction of his Worship, Mayor Gordon Reynolds from the Town of Bow Island. Bruce Corraini has stepped down as the Bow Island representative and G. Reynolds has taken his place.

Keith Crush will be acting as a liaison between the City of Medicine Hat and the EDA, attending EDA meetings in a non-voting capacity.

3. Adoption of Minutes for October

Motion to adopt the minutes of the October meeting: P. Deering. Seconded by: R. Harty. Carried.

4. Financial Report

There is two months left in the year and the EDA is fiscally sound. The budget is still under-spent in its Canada Pension Plan allotment.

Motion to adopt the Financial Report: W. Craven. Seconded by: J. Penner. Carried.

5. Executive Director Report

Cypress County contacted the EDA to postpone the EDA's presentation date until January 15th, 2013.

The EDA has created an initiative called "Funding Fridays", the staff will be posting funding opportunities via Twitter every Friday. The EDA also plans to create a live document of available funding opportunities.

The EDA would like to encourage the Board to check out the "*iUVS Virtual Con 2012*" event website and sign up to participate. It has international companies that have now registered. Event success will be measured by the number of leads and inquiries regional businesses receive after the event. Return-on-investment (ROI) collection will be available up for participants up to three months following the actual "live" event.

Executive Pulse is a cloud-based customer relationship management system the EDA wishes to utilize; the advantage of a cloud-based system as opposed to a software-based system is the ability to access it anywhere because the data is stored on the internet. The EDA can grant non-staff limited access to assist in tracking ROI. The setup of the database and the information that will result from the continual input of staff will be unique to the EDA. The start-up costs will start in 2012 while the operating costs will come into effect in 2014. The license fee is \$1,500 is set at the outset and will never change. Updated versions are included and come as part of the purchase package.

In January 2013 there will be a Business Retention and Expansion presentation by Millier Dickinson & Blais. Board Members are encouraged to attend.

6. Committees & Projects Progress Reports

a. Associate Director Report:

Nichola spoke on the CanSIA conference she attended. When she was there she promoted Medicine Hat as being the location for the next conference.

Nichola met with Air Support Cable Structures and connected them with APEX. The EDA is invited to Red Deer grand opening.

Nichola met with an Ontario-based property development company – CARE. The company also met with the Chamber and the City of Medicine Hat. They are interested in opportunities in Medicine Hat.

Fort McLeod Economic Development Region (south west) put Nichola in touch with a developer in Holland. Received our Bio-energy feasibility study and is interested in coming to visit the region in January. Nichola will be putting together a program for him.

Nichola is working on putting together Investment Attraction package as something tangible to give to clients. This would include such things as: an Infographic; the EDA Strategic Plan; and anything specific that would be of interest to the particular client.

b. Marketing & Communications:

One Key Performance Indicator (KPI) established for 2012 was to increase website by 25%. In actuality it increased by 37.4%. The number of unique visitors has increased as well.

c. Business Development Officer:

Shelly worked with a business owner from Elkwater, who has since told others about the assistance received by the EDA.

Shelley connected all of the greenhouses with a program about retaining foreign workers, which received much positive feedback.

Eat Local Week: there has been a lot of positive responses when contacting local businesses about this initiative.

Shelley and Nichola met with a business that is testing a new technology; the EDA has agreed to assist with social media promotion.

d. <u>Agriculture Committee</u>:

Planning for "Training the next Generation 3" has come together successfully. S. Dirk has secured three keynote speakers. MNP is fully sponsoring Leona Dargis, one of the event's keynote speakers. The Stampede Board has donated the facility.

The "Farming Smarter" event will be held on December 4-5, 2012; the EDA is a Bronze Sponsor.

The tentative date for the "Eat Local Week" initiative is the last week in April. A lot of promotional work still remains. "Eat Local Week" falls under the umbrella of the *Savour the Southeast* concept.

Discussion ensued regarding the various EDA Agricultural events and projects.

e. Energy Committee Report:

Fort McMurray Initiative: The Energy Committee has identified 8 regional companies to connect the Wood Buffalo group with when they come to Medicine Hat to visit in March 2013. N. Kondra, S. Dirk, and Alf Steinke will be taking the group to meet these various companies. The Energy Committee has also already identified members of the Wood Buffalo economic development groups who would be interested in coming. The theme of the project is "Keeping it in Alberta".

Jim Steinke has agreed to join the Energy Committee.

7. Items for Immediate Discussion

Key Performance Indicators (KPIs) for the EDA: it is difficult to measure economic success as the outcome of the work done today won't be seen for several years. However it is necessary to shift attention from measuring activities to measuring outcomes. Surveys and testimonials of clients can be supplementary to this. Both KPIs and the Executive Pulse system would provide the details requested by the funding partners. It's necessary in order to be accountable and responsive.

Discussion about the proposed KPI document followed.

The EDA requests feedback on the document by all Board members by Friday November 30, 2012.

EDA Strategic Plan 2012-2015 and Operational Plan 2013: The Operational Plan was created from the Strategic Plan; it outlines how the EDA is going to achieve the objectives set out in the Strategic Plan. The EDA conducted and end-of-year review of the 2012 Operational Plan and created one for 2013 out of what still needs to be completed. The EDA is still focused on its three core areas.

Discussion followed. The Operational Plan will be edited and then circulated prior to the December meeting for review.

8. Correspondence

The EDA was nominated by the Medicine Hat and District Chamber of Commerce for a provincial marketing award.

9. Chairman's Report

R. Lehr and W. Blackwell met with Lisa Kowalchuk and Jason Melhoff from the Medicine Hat and District Chamber of Commerce. The Chamber wishes to advocate for the EDA and continue its strong partnership. They are also collaborating with the EDA with the Fort McMurray initiative.

R. Lehr attended the Lavar Payne media event held at the EDA office on Friday November 16, 2012. Mayor Boucher was also in attendance. The media event celebrated the \$68,000 the EDA received in 2012 in federal funding dollars from ICCI, the Invest Canada – Community Initiatives program. It was the largest ICCI grant the EDA has received to date.

10. New Business

J. Penner has agreed to fill in as Vice-Chair for Bruce Corraini until the AGM.

Motion: To elect J. Penner as Vice-Chair until the next AGM. R. Harty. Seconded: R. Edwards. Moved.

There was discussion with regards to posting the EDA's annual financial statements online.

Motion: To post the annual financial statement online on the EDA website. W. Craven. Seconded by: G. Reynolds. Motion carried.

11. Round Table

Everyone reported on what was happening in their respective communities.

12. <u>Adjournment</u> 10:20 a.m. Motion to Adjourn: W. Craven

NEXT BOARD MEETING: WEDNESDAY DECEMBER 19, 2012 8:00 A.M.

MINUTES OF THE MEETING OF THE SUBDIVISION AND DEVELOPMENT APPEAL BOARD

THURSDAY, DECEMBER 13, 2012 @ 7:00 p.m.

PRESENT:	Members:	B. Hawrelak, D. Kilpatrick, V. Lutz, P. Monteith, E. Reimer, G. Shipley
	Planning Consultant Development Officer Recording Secretary	K. Snyder B. Stehr S. Simon
	Municipal Manager	D. Wolanski
	Appellant	T. Gervais, Contempora Construction (Agent) for Prairie Sage Holdings

1. CALL TO ORDER

Recording Secretary called the appeal hearing to order at 7:04 p.m., confirmed there was a quorum present to hear this appeal; and opened nominations for Chairman.

2. ELECTION OF CHAIRMAN

P. Monteith nominated B. Hawrelak to be Chairman, seconded by V. Lutz. B. Hawrelak accepted and assumed control of the appeal hearing.

Appeal of Development Application 12-DP-085 Lot 6, Block C, Plan 0414274 (1501 Dirkson Drive NE) Proposed Building Height exceeds permitted height in land Use Bylaw

Chairman B. Hawrelak asked T. Gervais, if he had any objection to any board members hearing the appeal. T. Gervais advised he had no objections to any of the board members.

a. <u>PRESENTATION OF APPELLANT</u>

T. Gervais advised the Board that the proposed development is open ended. His client has a tenant in mind for the site but the tenant has not committed yet. The building is being built on speculation. However, for the tenant that is interested proceeding would be dependent on the decision of this appeal. The tenant will only proceed if the overheight structure is approved. T. Gervais indicated the proposed structure will be approximately 11 feet over the maximum allowed in the Town's Land Use Bylaw and the tenant needs the height to accommodate the hook height for a crane. The client's tenant is proposing to manufacture tanks. Mr. Gervais commented that he feels the proposed development is consistent with the area and noted that there are other buildings/operations in the area of similar height and nature. T. Gervais discussed the design of the building. He advised the office space will be two stories while the shop area will be open space. Further commenting they will adhere to code requirements as necessary.

Mr. Gervais also noted that their original submitted drawing showing the location of the building on site did not meet the setbacks on the west side. This has been corrected and a new drawing submitted.

Chairman Hawrelak questioned the construction of the west wall and if it is to be a two hour fire rated wall. T. Gervais confirmed as designed it would be a two hour fire rated wall as per the requirements for spatial separation. B. Hawrelak also questioned if sufficient parking spaces will be provided, noting that by his estimation 27 stalls will be required. T. Gervais indicated the parking stalls identified were based on the office space. The number of maximum employees is unknown at this time but additional parking could be accommodated at the rear of the building.

B. Hawrelak questioned if the building will be sprinklered. T. Gervais responded that proposal presented does not require the structure be outfitted with a sprinkler system which is based on the size of the building and spatial separations and requirements under the code. Further noting that preference would be not to.

B. Hawrelak questioned if any consideration has been given to placement of the roof top unit and other mechanical equipment. If it would fenced and where would be be accessed from. T. Gervais indicated there would be no mechanical on the high side of the roof. The office side would have roof top access where the mechanical would be placed for the office area. He advised that that heating for the shop area is still in the design stages.

B. Hawrelak questioned what the intended function for the area on the top of the second floor is, noting the height of the building and concern with life safety. T. Gervais indicated they are looking at different design options but do not intend for it to be used or accessed.

It was questioned if other design options were considered. T. Gervais explained that the tenant will have a 30 ton crane and requires a 32 foot hook height which is why the structure was designed the way it was.

D. Kilpatrick noted that regular vehicular sized doors are indicated in the submitted plans, and with the requested building height, questioned why lifting doors similar to that of other like businesses were not to be used. T. Gervais indicated that they have encountered several problems with those doors and are bringing forth a new design option.

Reference was made to other similar business operation in the area. D. Kilpatrick questioned other possible design options. T. Gervais noted that to date no engineering design has been completed as they did not want to incur expenses if the proposal would be turned down based on the overheight of the structure.

b. **PRESENTATION OF DEVELOPMENT OFFICER**

B. Stehr referenced his report provided to the Board. Mr. Stehr confirmed that he had identified to the applicant that neither the setbacks nor the height proposed met the requirements of the Land Use Bylaw. B. Stehr confirmed that the applicant submitted a new drawing which shows the building meeting the setbacks. However, no change was made to the height of the structure. The application was refused because the proposed height exceeds the maximum allowed in the Land Use Bylaw.

With regard to parking, he noted that he has spoken with K. Snyder, Planning Consultant and additional parking could be located at the rear of the building which could be on a gravel base.

B. Stehr also advised that he has spoken with the Fire Chief to get his comments regarding the application and the Fire Chief indicated that if the structure is outfitted with a sprinkler system then he does not have any concerns.

c. PRESENTATION OF MUNICIPAL PLANNING COMMISSION CHAIRMAN

B. Stehr advised he had spoken with the MPC Chairman and he indicated he had no comments or concerns,

d. PRESENTATION OF PLANNING CONSULTANT

K. Snyder provided a bit of background information commenting that the site is located deep within the industrial district and is surrounded by both I1 Light Industrial and I2 Heavy industrial. He noted the I2 maximum height is a carryover from the previous Land Use Bylaw. Further commenting that the proposed structure is setback 30 m from the street and the size of the parcel is large mitigating its large appearance.

He commented that the SDAB is not governed by the same rules and should be looking at the site specific development proposal and if it makes sense and is appropriate from a development standpoint. Further commenting that rules aside, a building height of this size in an industrial area is appropriate, especially when there is a legitimate operational function and it is not a design issue. He indicated that if the development is granted he does not see a land use conflict from the proposed building height in comparison to others. The overheight is mitigated substantially because the building is setback a fair distance back from the street and the size of the parcel mitigates the massing and appearance. He also commented that the horizontal banding on the building breaks up the vertical wall.

K. Snyder recommended the Board overturn the decision of the Development office and grant the request as it relates to the overheight. However, Mr. Snyder would not recommend a relaxation to the sideyard setback.

K. Snyder further expressed caution to the Board based on the discussions that the SDAB should examine the proposal as it relates to development and refrain from extending into areas that would be regulated by code (ie fire code / building code). Also the SDAB should be looking at the development aspect and not how the business functions or operates.

e. <u>PRESENTATION OF ANYONE SERVED NOTICE OF HEARING</u>

D. Wolanski indicated he had a couple comments, noting some of them echo K. Snyder's comments. From the Town's perspective our one concern would be what is the limit and why have a limit if it can be easily changed. However, in looking at the project the Town also wants to be open for development. He agreed with K. Snyder's comments that the size of the lot mitigates the massing as well it is in an industrial area. Noting that there is a similar property to the north that has an over height structure that became part of the Town when that land was annexed, albeit the structure was approved under different regulations.

D. Wolanski commented that building and fire code issues will be addressed in accordance with the Building and Fire code requirements and is a separate issue. He noted that he has done extensive review and from a municipalities perspective it has no large implications for the municipality. Having an over height structure will not require the municipality to purchase a new fire truck. However, it could impact the future insurance grading rate and premiums town wide should the current insurance rating level change. Insurance ratings are based upon access to a fire hall, access to fire hydrants, equipment, response times etc.

R. Hawerlak asked specifically about the insurance requirements. D. Wolanski referenced the Fire Underwriters Survey which happens every 5-10 years. You provide them with information such as access to a fire hall, access to fire hydrants, equipment, response times etc. and they come in and look at all those aspects and assign a rating.

R. Hawrelak questioned again if the insurance rates are affected. D. Wolanski responded that If your rated at a different level, or your level changes in some way then yes I would expect the rates for all in town would be higher for example if all of a sudden every building was not within 8 km or if there were insufficient number of hydrants.

B. Hawrelak again questioned D. Wolanski that as far as you know at this point is there anything in the Town Insurance policy that would be affected. D. Wolanski clarified the Town's insurance policy is separate. He commented that if all of a sudden there were 100 over height buildings in the next 10 years possibly and then only if the insurance rating changes and the Town did not responds in terms of the fire department. Further commenting that they would also look at things such as mutual aid agreements when determining a rating.

D. Kilpatrick confirmed the Fire Department does not have a ladder tall enough to reach the proposed building height.

R. Hawelak questioned the maximum heights in the Land Use Bylaw commenting that they are all over the map and what happened during the revision process that there are heights that may impede the safety of rescuing people. Commenting who ever heard of an 8.5 m greenhouse attached to a 11m residence.

D. Wolanski indicated the Redcliff Planning Board has been reviewing the maximum heights. Further, noting that the maximum heights while different were

established with reasons and for what is appropriate for each zoning. D. Kilpatrick confirmed that maximum heights are being reviewed.

R. Hawrelak suggested that it was boiler-plate zoning documentation that was used when revising the zoning regulations; that the boiler-plate documentation established maximum heights in the revised regulations.

D. Kilpatrick commented that in his opinion it is the eave height that matters not the peak height.

D. Wolanski confirmed that you don't need to have a ladder truck to approve a development permit. Issues relating to fire will be addressed under the fire and building code. Further that he has reviewed the codes and has found nothing saying that if you approve a certain type of development that you need to have a fire truck equipped with a ladder to reach all heights. New York City would not have a fire truck equipped with a ladder tall enough for all of their buildings. You may have to meet certain requirements within the building.

R. Hawrelak guestioned if we approve and not just referring to this building, if the board approves a building that is of a height that sets a new standard for the insurance underwriters and that changes the rate for everyone and at this point we don't know if that's going to happen but it is still a possibility. D. Wolanski advised it would not happen at this time, perhaps if we approved a 100 of these overheight structures. However, prior to that more review will be done and what impact overheight buildings may have on an insurance rating.

f. PRESENTATION OF ANYONE CLAIMING TO BE AFFECTED No one was in attendance.

REBUTTAL OF APPLICANT g.

T. Gervais had nothing further to add.

h. OTHER

No further comments.

i. RECESS

V. Lutz moved the Board to recess at 7:46 p.m., and the Board met in camera.

D. Wolanski, K. Snyder, B. Stehr, and T. Gervais left the room at 7:46 p.m.

j. <u>DECISION</u>

D. Kilpatrick moved that the appeal against the decision of the Development Officer, to refuse to issue a permit to construct a new shop and offices as the proposed height of the buildings exceeds the maximum height in the Land Use Bylaw be upheld and that the decision of the Development Officer be revoked. Further that application for development to construct an overheight structure for shop and offices as shown within the submitted drawings be approved conditional to:

- 1. Relocation of the man door located at the rear of the west wall, or, provision of additional setback. The 3 meter wide west fire lane must be free of any access doors swinging into the required free & clear travel space.
- 2. Must meet Section 68 Parking and Loading Requirements of the Land Use Bylaw to the satisfaction of the Development Officer. Parking stalls to be calculated on the basis of area of office space and area for shop area (manufacturing – heavy) plus the required spaces for handicapped parking. Note that parking provided in the rear (North of the structure) yard must be designated (clearly indicated as parking).
- 3. Submission of a site drainage plan to the satisfaction of the Manager of Engineering.

Further the Board advised the reasons for its decision is that

- 1. From the street perspective the appearance of the structure is acceptable.
- 2. The setback of the structure from the street and the size of the lot mitigates the massing of the structure.
- 3. The proposed development is within the industrial district and is consistent with other buildings in the area.
- 4.* Accessible/occupied floors are restricted to two (2) that are of a height that are accessible by the Town of Redcliffs existing fire fighting apparatus.

[* *R*. Hawrelak (Chair) comment: this reason was not overtly expressed within the meeting BUT was underlying the discussion as to building height, available fire fighting equipment, and occupied/accessible floors within the structure. (Example: Will the ceiling area over the 2nd floor office area contained within the shop structure (therefore creating a 3rd floor) be accessible for storage or mechanical equipment? T. Gervais indicated that no, this space would be walled off vertically and would not be accessible.) Therefore life safety requirements for rescue from this area would not play a role in restricting the height of the shop building.]

V. Lutz moved the Board reconvene at 8:25 p.m.

K. Snyder, B. Stehr, D. Wolanski, T. Gervais rejoined the meeting at 8:25 p.m.

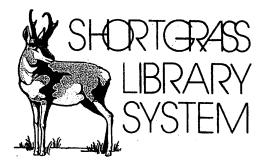

Chairman Hawrelak advised the applicant of the Board's decision and reasoning. Further, that a letter stating the decision of the Board would be forthcoming.

4.

ADJOURNMENT P. Monteith moved the meeting be adjourned at 8:30 p.m.

Chairman

S. Simon, Recording Secretary

Information regarding the CLA membership will be brought back to the November 21st Board Meeting.

Moved by Les Pearson that the SLS Board approve the August 22nd, 2012 Finance & Personnel Meeting Minutes as presented. Attachment 18

CARRIED

The RISE Directors (including SLS CEO) will be meeting with AllStream (the vendor who supplied the VC equipment) on September 26th, 2012 to discuss the maintenance service agreement regarding the RISE equipment at Shortgrass Headquarters and all member libraries. The current agreement expires in January 2013. The cost for renewal is expected to cost around \$1500 per library.

Moved by Doug Henderson that the SLS Board approve that Shortgrass Library System will not renew the maintenance service agreement for member libraries and headquarters RISE equipment.

A letter of withdrawal was sent to the Alberta Multilingual Book Consortium on August 31, in order to meet the deadline for withdrawal by December 31, 2012. Several regional systems indicated they were withdrawing from the consortium, and the charges for the service would be divided between remaining members. To avoid getting stuck with a large bill, we decided to withdraw as well, since the feedback about the collection has not been favorable from our member libraries.

Moved by Les Pearson that the SLS Board approve the withdrawal from the Alberta Multilingual Book Consortium.

Moved by Marj James that the SLS Board approve the disposal of the items brought to the Board. Attachment 19

Board Chair Report – Kathi Herman

• Anton, Petra and Kathi worked at clearing out the bushes in front of Shortgrass Headquarters. Kathi was able to get a great deal on new plants from Golden Acre Garden Center. We are hoping to have a work party on September 28th to finish the clean-up and plant the new stuff. An employee from Golden Acre will be on hand to assist.

BYLAW NO. 1735/2013 OF THE TOWN OF REDCLIFF IN THE PROVINCE OF ALBERTA

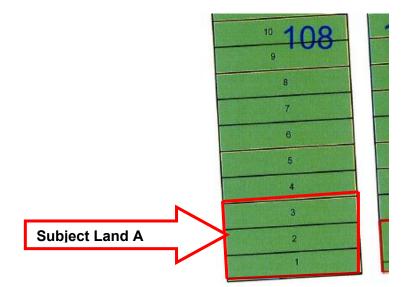

A BYLAW OF THE TOWN OF REDCLIFF IN THE PROVINCE OF ALBERTA FOR THE PURPOSE OF AMENDING BY-LAW 1698/2010 BEING THE REDCLIFF LAND USE BYLAW:

WHEREAS the lands described as

<u>Legal Description</u> Lot 1-3, Block 108, Plan 1117V Civic Address 102 4 Street NE

(herein referred to as "Subject Land A"), is presently designated C-3 (General Commercial) District; under the Town of Redcliff Land Use Bylaw;

AND WHEREAS it is proposed that 'Subject Land A' be redesignated to DC (Direct Control) District. 'Subject Land A' is located as indicated on the following map.

AND WHEREAS copies of this bylaw and related documents were made available for inspection by the Public at the Municipal Office as required by the Municipal Government Act R.S.A. 2000, Ch. M-26;

AND WHEREAS a public hearing with respect to this bylaw was held in the Council Chambers at the Town of Redcliff on the _____ day of _____, A.D. 2013.

NOW THEREFORE THE MUNICIPAL COUNCIL OF THE TOWN OF REDCLIFF IN COUNCIL ASSEMBLED ENACTS AS FOLLOWS:

- 1. This bylaw may be cited as the Town of Redcliff Land Use Amending Bylaw 1735/2013.
- 2. The land described as

Legal Description Lot 1-3, Block 108, Plan 1117V Civic Address 102 4 Street NE

is hereby redesignated as DC (Direct Control) District.

Bylaw No. 1735/2013

3. This bylaw shall come into force on the date of final reading and signing thereof.

READ a first time the _____ day of _____, 2013.

READ a second time the _____ day of _____, 2013.

READ a third time this the _____ day of _____, 2013.

PASSED and SIGNED this the _____ day of _____, 2013.

MAYOR

MANAGER OF LEGISLATIVE AND LAND SERVICES

Approved by Council -

GRAZING LEASE POLICY

BACKGROUND

The Town of Redcliff has undeveloped land in various locations in Redcliff suitable for grazing leases. This land is not immediately needed for development and may be made available for use and leased out for grazing purposes to generate revenue for the Town of Redcliff.

POLICY

- 1. On the date of passing of this policy by Town Council, all leases in effect and anyone entering into a lease with the Town of Redcliff are subject to new terms and conditions of the Grazing Lease Policy.
- 2. Lands that become available for lease will be first offered to Redcliff residents. Should no Redcliff residents be interested in a grazing lease at the time of availability it will then be available to non-residents.
- 3. Lease Rate

Land leased from the Town of Redcliff for grazing purposes is based on an annual basis at the following rate and subject to signing of the standard lease agreement.

- a) up to 50 acres \$10.00 per acre minimum \$150.00
- b) 51 100 acres \$500.00 plus \$8.00 / acre over 50 acres
- c) Over 100 acres \$800.00 plus \$6.00 / acre over 100 acres

If the leased lands are considered live for assessment, taxes will be included in the lease costs and will not be an extra charge to the lessee.

- 4. Leases are not transferable.
- 5. No individual may be in possession of more than one grazing lease of Town of Redcliff land unless no other interest has been expressed in a lease at the time it is available.
- 6. No leased areas may be merged for the purpose of cost benefits. Adjacent leases may be combined into a single lease for administrative purposes.
- 7. Administration shall present a Grazing Lease Agreement to Council for any new lease to be created. Grazing Lease Agreements are subject to Council approval.
- 8. Payment of leases:
 - a) Finance and Administration shall invoice lessees annually.
 - b) Lessees shall have 30 days from date of invoice to make full payment.
 - c) Any lease that has not been **fully** paid within 30 days of date of invoice shall automatically be deemed canceled and made available.

Page 2 of 2

- 9. Manager of Legislative and Land Services may advertise leases in a newspaper circulating in the area.
- 10. Manager of Legislative and Land Services will establish the size of the area to be leased. Leased areas will not be allowed to be reduced in size so as to make the leasing of the rest of the adjacent property unfeasible.
- 11. Lessees shall be required to maintain liability insurance in an amount of \$1,000,000 minimum and provide a copy of this policy annually to the Town of Redcliff no later than March 1.
- 12. Lessee is responsible for ensuring any animals that he/she has authorized to occupy his/her lease have adequate liability coverage.

Re: Reduction in sewer surcharge

Larry,

3.1

a)

i)

As has been discussed with you, I am in receipt of your request dated November 1, 2012 addressed to Town Council asking for a reduction in the sewer surcharge for your non-residential property located at 118, 3rd St. NE.

As you are aware, we have discussed the process outlined in Bylaw 1729/2012 which states:

Exceptional consideration may be made by the Municipal Manager for a reduction in cases where it is clearly discernible that:

certain volumes of effluent are not discharged into the sewer system. This reduction shall not exceed 75% of the sewer surcharge. If warranted further reductions may be approved by Redcliff Town Council. Reductions, if warranted, shall be limited to the previous three (3) years from the date the written request for rebate is received.

In order to maintain the proper process outlined in the Bylaw we agreed that I would first review the request, make a decision, and take the next step to Council following the decision as you indicated that even a 75% reduction would not be satisfactory.

After reviewing all of the information, including the attached water consumption for the previous three years, it is my analysis that the evidence clearly demonstrates that effluent is not being discharged into the sewer system and thus will approve the maximum 75% of the sewer surcharge allowed under the Bylaw and my authority within. The total amount is calculated as follows:

2010 Total Surcharge:	\$ 0
2011 Total Surcharge:	\$134.51
2012 Total Surcharge:	<u>\$552.30</u>
Total 3 years:	\$686.81
75% reduction:	\$515.11

As you recall, our verbal conversation on the morning of January 9, 2013 confirmed that your wish is for me to present the matter to Council on January 14th, 2013 seeking "further reductions" as per the Bylaw. I recognize that you are out of Town until the beginning of March and I indicated that should it appear that Council not be in favour of the full reduction that you are asking for than we would delay the item until your return whereby you can make a presentation to Council.

You have also indicated your willingness to install a garden water service for the property whereby we would avoid this issue for the future. I encourage you to pursue this course of action by making a request and sign-on at Town Hall. There is a \$25 sign-on fee.

I will inform you of any decision of Council well in advance.

Regards,

David Wolanski^V Municipal Manager Town of Redcliff .

November 1, 2012

Town of Redcliff Redcliff Town Council PO Box 40 Redcliff, AB T0J 2P0

Attention: Redcliff Town Council

I am making application for a reduction and rebate for sewer charges at 118, 3rd St. NE in Redcliff. We use the water to keep the yard green and only a small amount is actually used for domestic use as the monthly bills indicate, during periods where yard watering is not done we hardly use any water at all. I would like the maximum reduction of the sewer rate that is allowed. Attached are pictures of yard and utility bills. Thank you

Subject: Canadian Badlands Tourism Conference Medicine Hat March 2013
Importance: High

Hello, David,

- Thank you for the information you provided by phone today.
- Here is the information on the 3rd Annual Canadian Badlands Tourism Development Conference, scheduled in Medicine Hat on March 27 & 28, 2013, with the theme, The Art of Collaboration.
 - The City of Medicine Hat is the Municipal Host for this Conference, and CBL is inviting nearby shareholder municipalities as sponsors of meals or refreshment breaks, or as Tourism Boosters or Supporters.
 - Several rural municipalities have already confirmed a co-sponsorship of refreshment breaks. Redcliff is welcome to sponsor or co-sponsor the remaining refreshment break or the Thursday breakfast, or any other opportunity listed.
 - The benefits of sponsorship are listed, and depending on the level of sponsorship, include complimentary conference registrations and opportunity to display in the Tourism Showcase.
- I would also appreciate learning of any potential corporate sponsors operating businesses in Redcliff.
- Please contact me if you need any clarification before you take this invitation to Council.

Warm regards,

Peggy Birse

Refreshment Break Sponsor 3rd Annual Canadian Badlands Tourism Development Conference Cypress Centre, Medicine Hat, Alberta Wednesday, March 27 & Thursday, March 28, 2013

The third annual **Canadian Badlands Tourism Development Conference and 2013 Annual General Meeting** will be held March 27 & 28, 2013 in Medicine Hat. This year's theme, *The Art of Collaboration*, will celebrate and strengthen collaborative initiatives in the region, showcasing innovative and practical ideas for tourism product development.

Headlined by renowned speakers, Jeff Mulligan and Simon Hudson, keynote and workshop topics include: *Building Super Stars & Super Teams; Making your Product Market-Ready; Unleashing Local Capital; a Collaborative Grant-writing Panel; Medicine Hat Arts Collaborations; and the Chemainus Mural Project.* Inspiring youth entrepreneur, Jori Kirk, will present *Building a Tourism Business.*

With an anticipated attendance of 200, participants include the 65 shareholder municipalities of Canadian Badlands Ltd. and the for-profit businesses and not-for-profit organizations that offer tourism services, attractions, events and products. The Gala Dinner will include representatives of the Government of Alberta and Travel Alberta.

Since 2009, Canadian Badlands Ltd. has been working strategically in the region, including Medicine Hat and surrounding rural areas, with municipalities, tourism attractions and operators to improve tourism products and infrastructure, develop unique branding, and develop the arts and culture, all working toward increasing tourism and enhancing experiences for local and incoming visitors. Sustainable Tourism Development ensures development that brings positive experiences for local people as well as tourism companies and visiting tourists.

Benefits to our Refreshments Hosts or Co-Hosts

- Recognition for sponsoring or co-hosting a Refreshment Break
- The Conference provides opportunities for municipal leaders and business operators to gain knowledge and collaborate on new tourism product development, new partnerships, and leadership development, and enhance tourism market-readiness.
- Sponsors contribute to affordable registrations for local shareholder representatives and tourism business operators to attend the two-day Conference and AGM.

Refreshment Sponsor Investment: \$1,500 Co-host Sponsor Investment: \$750

For more information, please contact:

Peggy Birse, Research & Funding Specialist 403.343.9372, pbirse@canadianbadlands.com

Recognition Opportunities for Refreshment Break Sponsors

- Recognition of the AGM and Conference Refreshment Break Sponsors will be done during the Conference, in the program, and through signage.
- The Refreshment Break Sponsorship, valued at \$1,500, will receive one complimentary booth in the Tourism Showcase, valued at \$100.
- The Refreshment Break Sponsor or Co-hosts will receive one complimentary ticket valued at \$100 to the Conference, Keynote and workshop presentations, and VIP Gala dinner
- Conference registrations include all Conference keynote and workshop sessions, the Gala dinner, meals and refreshments, and the CBL Annual General Meeting.
 - Nationally acclaimed business speaker, Jeff Mulligan, Mayor of Lloydminster and Managing Partner, Ah-Ha Moments, will be presenting the Wednesday keynote address, *Building Super Stars and Super Teams*, and a workshop session, *Capturing the MAGIC through Engagement*.
 - On Thursday, internationally recognized tourism developer, Dr. Simon Hudson, will address the importance of marketing collaborations, showing how tourism stakeholders can lever existing partnerships, and develop new ones, to grow tourism. The keynote will be followed by a Q & A workshop.
 - The Gala Dinner will include representatives from government and Travel Alberta. The Hon. Christine Cusanelli, Minister of Tourism, Parks and Recreation, is being invited as guest speaker.

SUBDIVISION REVIEW REPORT

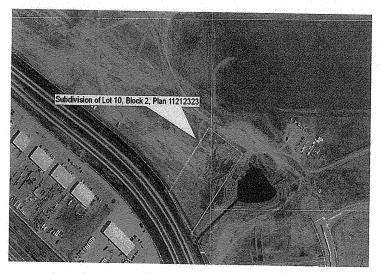

STATUTORY APPLICATION DATE: December 27, 2012

2012MH013

LOCATION: 2500 Box Springs Blvd NW PROPOSAL: To create two (2) bareland condominium lots.

OWNER: Canalta Real Estate Services Ltd. APPLICANT: Benchmark Geomatics (#12090521) LEGAL: Lot 10, Block 2, Plan 121 2323 TYPE OF SUBDIVISION: Commercial EXISTING LAND USE DESIGNATIONS: C3 – General Commercial District PREVIOUS APPLICATION: 2012MH001 RESERVE STATUS: Previously provided (see 2012MH001). OFF-SITE LEVIES: Previously paid (see 2012MH001) SUBDIVISION BY: (X) Plan () Instrument

Prepared by: Jarred Friedman

BACKGROUND

The proposal is to create 2 (two) bareland condominium lots. Units 1 and 2 will be for the future construction of a hotel and restaurant. The subject site is located within the Box Springs neighbourhood.

PLANNING ANALYSIS

The previous subdivision was approved in 2012 (2012MH001) for the creation of the subject lot. The minimum site requirements for a C3 lot are being met. The Box Springs Area Structure Plan designates the site as 'C3 – General Commercial District'. Reserves have previously been dedicated and Off-Site Levies have been paid.
