## **INFORMATION REQUIRED FOR A DEVELOPMENT PERMIT**

The following information is required to review and evaluate your Development Permit application in a timely matter.

To expedite the application review, all submitted materials must be clear, legible and precise. Accurate and legible drawing are required (rough sketches are not acceptable).

Applicant	Office	Required Items
o	o	Completed Development Permit Application
o	o	Off-Site Levies (if applicable)
o	o	Abandoned gas well map (if proposed building is larger than 35 m <sup>2</sup> )
o	o	Site Plans – to be scaled and dimensioned showing: <ul style="list-style-type: none"> <li>• Municipal Address and legal description (Lot, Block, Plan)</li> <li>• Property lines</li> <li>• Front, rear and side yard setbacks from property lines</li> <li>• North arrow</li> <li>• Easements and utility right-of-way</li> <li>• Lot grades (including building grades at all corners)</li> <li>• Foundation outline of the principal building and outline of eaves and any other projections</li> <li>• Outline and location of any accessory building</li> <li>• Driveway or parking areas (including width and length of all stalls)</li> <li>• Retaining walls (existing and proposed)</li> <li>• Adjacent municipal streets, sidewalks, curbs and proposed curb cuts</li> <li>• Location of existing or proposed water, sanitary sewer, gas and electrical lines</li> </ul>

**The Development Authority may require additional material/information necessary to properly evaluate the proposed development.**

**PLAN OF SUBDIVISION** – means a plan of subdivision registered or approved for registration at the Land Titles Office.

**PRINCIPAL BUILDING** – means a building which comprises the principal use of the site.

**PRINCIPAL USE** – means the principal purpose for which a building or site is used or intended to be used.

**PRIVATE POOL** – means any private swimming pool, decorative pond, or hot tub, whether above or below the ground, which is used exclusively for the private entertainment of the dwelling's inhabitants or guests.

**PROVINCIAL OFFENCES PROCEDURE ACT (POPA)** – means the *Provincial Offences Procedure Act* of Alberta, as amended.

**REAL PROPERTY REPORT** – means a legal document prepared by an Alberta Land Surveyor in accordance with the Alberta Land Surveyor Association's Act that illustrates in detail the location of all relevant, visible public and private improvements relative to property boundaries.

**RECREATION (CULTURE & TOURISM)** – means a use where public or private cultural or tourism recreation occurs. Typical development includes tourist information centres, libraries, museums, art galleries, or other cultural facilities, but does not include Recreation (Public) facilities nor Establishment (Entertainment).

**RECREATION (OUTDOOR)** – means a use where outdoor recreation occurs. Typical development includes outdoor skating rinks, lawn bowling greens, tennis courts, swimming and wading pools, water spray parks, rodeo grounds, go-cart tracks, miniature golf, and golf courses.

**RECREATION (INDOOR)** – means a use where sports or recreation, that is open to the public, occurs within an enclosed building. Typical uses include recreation centres, community halls, public swimming pools, private clubs or lodges, health or fitness clubs, bowling alleys, curling rinks and arenas, but does not include Government Services.

**RECREATION (SPECIAL OUTDOOR)** – means a Development or Site whose Principal Use is to be a venue for outdoor recreational activities that in the opinion of a Development Authority may cause an adverse impact to other lands. Typical uses include a place where vehicles are raced either directly or by remote control, a firearm shooting range, or outdoor paintball or amusement park.

**RECREATIONAL VEHICLE (RV)** – means vehicle or trailer that is designed for recreational or travel purposes and includes but is not limited to motor homes, travel trailers, fifth wheel travel trailers, tent trailers, toy haulers, boats, campers whether located on a truck or other vehicle or not, and a trailer used to transport any of the above, but does not include personal watercraft, snow mobiles, all-terrain vehicles, hunting buggies, and other small scale recreational vehicles.

**RECYCLING FACILITY** – means development for the purchasing, receiving, sorting and temporary storage of discarded articles for reuse and does not generate a detrimental impact or nuisance beyond the boundaries of the site. This term refers to uses such as bottle, can and paper recycling depots. Salvage, wrecking or disassembly operations are considered Industrial (Heavy).

**REDESIGNATION** – means the conversion of land from one land use district to another.

**REGISTERED OWNER** – means:

- a) in the case of land owned by the Crown in right of Alberta or the Crown in right of Canada, the Minister of the Crown having the administration of the land, or
- b) In the case of any other land,
  - i. the purchaser of the fee simple estate in the land under an agreement for sale that is the subject of a caveat registered against the certificate of title in the land and any assignee of the purchaser's interest that is the subject of a caveat registered against the certificate of title, or
  - ii. in the absence of a person described in paragraph (a), the person registered under the Land Titles Act as the owner of the fee simple estate in the land.

**RESERVE, ENVIRONMENTAL (ER)** – means the land designated as Environmental Reserve per the MGA.

#### 4.35 ACCESSORY BUILDINGS AND STRUCTURES

- a) A structure which is attached to the principal building by a roof, a floor or a foundation is not an accessory building, and it is to be considered part of the principal building.
- b) For the purposes of this Bylaw detached garages are considered accessory buildings.
- c) Other than an approved Secondary Suite (External), an accessory building shall not be used as a dwelling or contain a dwelling unit.
- d) No Accessory Building or Structure shall be located in the front yard.
- e) Any Accessory Building or Structure, except a patio, deck or fence, shall be located at least 1.8 m from any principal building.
- f) No Accessory Building shall exceed 4.5 m in height.
- g) The maximum size of an accessory building(s) in a Residential or Mixed-Use District is 15 % of the site area coverage or 93 m<sup>2</sup>, whichever is less.
- h) No more than three (3) accessory buildings shall be permitted on a lot. Their total site area coverage may not exceed 15%.

#### 4.36 PRIVATE POOLS

- a) Every private pool shall be secured against unauthorized entry by a fenced yard.
- b) The Development Authority, in considering an application for a private swimming pool, hot tub or other water feature located within 30.0 m of an escarpment may require the applicant submit a Slope Stability Geotechnical Study.
- c) An outdoor swimming pool and hot tub shall:
  - i. be located in a side or rear yard only,
  - ii. be set back a minimum of 1.5 m from property lines, and
  - iii. be secured against entry to meet the requirements of the *Alberta Building Code*.
- d) All private swimming pools shall be connected to the Town's water and sanitary sewer system in accordance with provincial requirements. The applicant shall ensure that the adjacent properties are not subjected to any water problems resulting from the malfunctioning of the pool.

#### 4.37 DWELLING UNITS ON A PARCEL

- a) No person shall construct or locate, or cause to be constructed or located, more than one dwelling unit on a parcel except when permitted within a District and specified in a Development Permit.
- b) The Development Authority may issue a Development Permit for the construction or location of more than one dwelling unit on a parcel of land if the proposed dwelling units will be:
  - i. contained in a building that, or in buildings each of which, is designed for or divided into two or more dwelling units,
  - ii. located on a parcel of land that is divided into bareland condominium units, or
  - iii. a single detached dwelling and a Secondary Suite (Internal) or (External).

#### 4.38 CONDOMINIUM AND BARE LAND CONDOMINIUM PLANS

- a) In the event of subdivision by condominium or bare land condominium plan, development shall be treated as a multi-unit complex where development setbacks for the front, rear, and side yards shall be the same as specified in the appropriate Land Use District. Spatial separation between buildings shall also comply with the *Alberta Building Code*.

# DEVELOPMENT PERMIT APPLICATION

1. Failure to fully complete this form and/or supply the required information may result in a delay of the application process.
2. Development Permit fees must accompany this application prior to its review.
3. A Development Permit does not become effective until the appeal period has expired or until any made appeal has been heard and a decision rendered.
4. If a decision has not been issued within 40 days of the date the application is deemed refused. An appeal of the refusal may be made to the Subdivision and Development Appeal Board within 14 days.
5. A Development Permit shall be void after 12 months of no progress.
6. A Development Permit is NOT a Building Permit or Business License. Any approvals granted regarding this application does not excuse the applicant from complying with Federal, Provincial, or other Municipal requirements.
7. The Development Permit does not override conditions of any easement, restrictive covenant, architectural controls, or agreement affecting the building and/or lands. The Applicant is still responsible to comply with any and all of these conditions.
8. An authorized person designated by the municipality is allowed to enter subject land and buildings for the purpose of an inspection with respect to this application only. The time and date of inspection to be mutually agreed upon by both parties.

*I have read, understood, and agree to the above information. The information I have provided is true, and to the best of my knowledge and abilities, is accurate and complete.*

This image shows a full page of blank graph paper. The grid consists of thin, light gray horizontal and vertical lines that intersect to form small squares across the entire surface. There are no margins, text, or other markings on the paper.

**The Development Authority may require additional material/information necessary to properly evaluate the proposed development.**

# DEVELOPMENT FEES

The following fees are as per Fees, Rates and Charges Bylaw and are subject to change without notice. The entire Bylaw can be found on the Town of Redcliff's website at [www.redcliff.ca](http://www.redcliff.ca).

1. Fees shown are base fees and do not include extra fees for MPC meetings, special MPC meetings, Land Title surcharge, etc. These other fees will be added to the base fee as required.
2. Development fees are based on delivery of the decision within 40 days. This may be shortened to 15 days by paying double fees including a doubling of MPC fees.

## Residential

R-GEN Single Dwelling Unit – 1 unit	\$100.00
R-GEN Single Dwelling Unit – Auxiliary Unit (in addition to the base fee for Single Dwelling Unit – 1 unit)	\$150.00
R-GEN Single Dwelling Unit – 2 Units (Duplex/Semi)	\$250.00
R-MED Multi-Unit Dwelling	
Base	\$110.00
Per unit fee	\$55.00
Accessory Buildings – 10 m <sup>2</sup> – 35 m <sup>2</sup>	\$70.00
Accessory Buildings – Greater than 35 m <sup>2</sup>	\$110.00
Additions not creating a new unit	\$110.00
Home-Based Business Type 2	\$75.00
Demolition (if not part of a Development Permit)	\$65.00
Decks	\$75.00
Others as determined by Development Authority	\$110.00

## MPC & SDAB

Discretionary Use – MPC – additional fee above regular application fee	\$100.00
Special MPC – additional fee above application and regular MPC fee	\$300.00
Appeal Filing Fee – Subdivision & Development Appeal Board	\$150.00
Variance Fee	\$250.00

## Construction Damage Deposit

Residential	\$2000.00
Commercial/Industrial/Institutional/Horticultural	\$5000.00

*Note: A construction damage deposit may be taken for development permits issued for principal buildings, accessory buildings, additions, excavations and/or demolition permits.*

**Work started before permit issuance is subject to double permit fees.**

# TOWN OF REDCLIFF

P.O. Box 40 - 1 – 3rd Street NE

Whether you are landscaping, building a new fence, deck, garage, or simply planting a garden, disturbing the ground on your property can cause damage to a buried utility. Some utilities are buried mere centimeters below the surface.

The result of a contact with a buried line can range from loss of an essential service for you or your neighbours to serious injury or fatalities. The financial costs of repairing any damage you cause to a buried utility will be borne by you, the excavator.

**Step 1:** Submit your locate request online or by phone  
To request that buried utilities on your property be located and marked, Submit a request online anytime at [www.clickbeforeyoudig.com](http://www.clickbeforeyoudig.com) or call [1-800-242-3447](tel:1-800-242-3447) (Monday – Friday, between 8:00am and 4:30pm). Plan ahead and place your request at least three full working days before you start your project.

**Step 2:** Wait for the locate to be completed  
Once you have submitted your request, the utility owners are responsible for contacting you. There are three ways your request can be resolved:

1. The utility owner may contact you and let you know that there are no buried utilities located in your dig space. They are obligated to provide this information in writing as well.
2. The utility owner may mark the buried lines on your property. In this case, they will provide you with documentation explaining the markings and how to proceed.
3. The utility owner may contact you to schedule a time to meet at the dig location. For example, if your dig location is located behind a locked fence, you will need to arrange to meet the locator on site.

**Step 3:** Identify any customer-owned utility lines  
Customer-owned lines, such as water and sewer service lines, sprinkler systems, and any lines connecting buildings on a property, are not registered with Utility Safety Partners. The utility owners do not know the location of these lines, so it is your responsibility to identify them.  
Contact a private locator to mark any customer-owned utilities in your dig area.

**Step 4:** Dig with care  
**Locate markings identify the approximate location of buried utilities and do not identify the depth of the line.** If you're digging within one metre on either side of the markings (or five metres from high pressure pipelines), carefully expose the line with hand tools to determine its exact location and depth. If you have questions about digging close to a utility, contact the utility owner.  
Find additional resources and information at <https://utilitysafety.ca/learning-centre/resources/>

### **Advisory Land Use Planning Notes on New Regulatory Requirements for Surface Development in Proximity to Abandoned Wells**

#### **Introduction**

An amended Subdivision and Development Regulation (Alberta Regulation 160/2012) comes into force November 1, 2012. New provisions were added to ensure abandoned wells are accommodated during future subdivision and development. These planning notes provide important information to municipal officials, planners, development officers, developers and landowners on the new provisions for abandoned oil and gas wells and how to accommodate them within areas where development, subdivision, or construction may occur. These mandatory provisions must be complied with when preparing municipal subdivision and development plans, other statutory plans, and/or land use bylaws. Municipal subdivision or development authorities evaluating development permit and subdivision applications must ensure these provisions are applied prior to issuing approvals.

#### **The Issue**

The location of oil and gas wells that are being drilled or are actively producing is evident, both from the surface and through a notation on the land title. Abandonment of an oil or gas well occurs by rendering the well incapable of flow and placing a cap over the casing approximately one meter below the surface. Energy Resources Conservation Board (ERCB) *Directive 020: Well Abandonment* sets out minimum well abandonment requirements to be met by the licensee of the well to ensure the integrity of the well and protect public safety and the environment.

After surface reclamation is complete and a certificate is issued by Alberta Environment and Sustainable Resource Development, the well site lease notation may be removed from the title. At this point, there is nothing visible on the surface or on the title to indicate the presence of an abandoned well.

Abandoned wells rarely require maintenance but adequate access to the site needs to be maintained should a leak occur. The abandoned well bore is not visible on the surface and therefore may represent a risk to excavation and construction equipment and safety of the equipment operator if abandoned wells are not properly located.

The risk to the public from an abandoned well is very low. *ERCB Directive 079: Subsurface Development in Proximity to Abandoned Wells* sets out a minimum setback distance from the well that must be maintained between abandoned wells and development as well as requirements for accurately locating the abandoned well and verifying its integrity prior to development. The amended Subdivision and Development Regulation requires municipalities

to confirm if abandoned wells are present as part of a subdivision or development permit application review. Where an abandoned well has been identified in the review, the municipality shall ensure that ERCB setback requirements are applied to allow for both well site access and prevention of accidental contact of a well bore with construction equipment.

In summary, it is the responsibility of the developer or landowner (proponent) of the proposed subdivision and/or development to take measures to identify any abandoned wells within that property and to apply the required setback as set out in the ERCB directive. It is the responsibility of the municipality, as part of the subdivision and development application process, to ensure that the proponent of the subdivision or development has taken these measures and has applied the required setback. These efforts will ensure that abandoned wells are appropriately identified and suitable setbacks are incorporated in planning, development and construction decisions. The information that follows in this bulletin further explains these processes.

## Obtaining Abandoned Well Site Records

The developer or landowner (proponent) of the proposed subdivision and/or development must obtain abandoned well information from the ERCB. This information can be obtained from the ERCB's Abandoned Well Viewer available on the ERCB website at [www.ercb.ca](http://www.ercb.ca). The viewer will provide a map identifying all abandoned well surface locations in the selected area and a listing of additional details, including the licensee of record, surface location, latitude and longitude, and fluid type of each well. If it appears that a potential conflict between abandoned well locations and proposed surface development may exist, the proponent must contact the licensee of record for any additional information that may be required or to physically locate the well. If the proponent is unable to contact the licensee of record using the information provided, the ERCB may be able to assist with additional contact information. To obtain clarification about the information provided by the Abandoned Well Viewer, or if you do not have Internet access, contact the ERCB Customer Contact Centre by telephone at 1-855-297-8311 or by e-mail at [Inquiries@ercb.ca](mailto:Inquiries@ercb.ca) or contact Information Services by mail at ERCB, Suite 1000, 250 - 5 Street SW, Calgary AB T2P 0R4.

The ERCB has been administering the abandonment of oil and gas wells since January 1945. The ERCB may not be aware of all wells drilled and abandoned before 1945, and records for a small number of wells abandoned before this time may not be complete because the data was not available. ERCB records may only provide general information on how these wells were abandoned. In such cases, the licensee of record should be contacted by the proponent for detailed information and verification of well data. If the licensee of record no longer exists, the proponent may contact the ERCB for assistance.

## Setbacks from Abandoned Well Sites

*ERCB Directive 079: Subsurface Development in Proximity to Abandoned Wells* ([www.ercb.ca](http://www.ercb.ca)) sets out detailed requirements for accommodating abandoned wells during subdivision and development. The Directive specifies that development on top of an abandoned well will not be permitted and a minimum setback of a five metre radius around the well must be maintained. The proponent is strongly encouraged to also consider providing an access route to the well wide enough to allow vehicle entry to the site. The licensee of the well is responsible for determining if

the well was abandoned to an acceptable standard and if there are any existing well integrity issues that require repair prior to surface development taking place.

## **Applications for Subdivision and Development Permits**

### **Subdivision Application**

#### **Application Process**

- New subdivision applications, except for lot line adjustments, must include documentation from the ERCB identifying the presence or absence of abandoned wells. Documentation can be obtained from the ERCB using the online Web Viewer.
- If an abandoned gas or oil well is identified on the land that is the subject of the subdivision application, the applicant must include a map that shows the actual well location, as identified in the field, and the setback established in ERCB Directive 079 in relation to existing or proposed building sites.
- If an abandoned gas or oil well(s) is identified on land that is the subject of the subdivision application, the Subdivision Approving Authority must refer a copy of the subdivision application to the Licensee(s) of Record. The referral must include the applicant's contact information.
- The information is not required if it was submitted to the same subdivision authority within the last year.

#### **Decision Process**

- Effective November 1, 2012, the Subdivision Authority may not approve subdivision applications unless the lots comply with the setback directed by ERCB Directive 079.

### **Development Permit**

#### **Application Process**

- New development permits for buildings larger than 47 sq. m. (500 sq. ft.) and for additions to buildings that will as a result of the addition become larger than 47 sq. m., must include documentation from the ERCB with the application identifying the presence or absence of abandoned wells. Documentation can be obtained from the ERCB using its online Web Viewer. The information is not required if it was submitted to the same development authority within the last year.

#### **Decision Process**

- The Development Authority may not approve a development permit for an application received after the coming into force of the amended regulation for buildings larger than 47 sq. m. and for additions to buildings that as a result of the addition becomes larger than 47sq. m., unless the development complies with the setback directed by ERCB Directive 079.

- Buildings that existed prior to the coming into force of the amended regulation, that are destroyed to 75 per cent of value, if rebuilt must comply with the setback directed by ERCB Directive 079.
- If an application is made to alter or add on to a building larger than 47 sq. m. and for an addition to a building that as a result of the addition becomes larger than 47 sq. m. that existed prior to November 1, 2012, which does not comply with the setback directed by ERCB Directive 079, the Development Approving Authority may approve the application with the acceptance of a lesser setback distance if the Well Licensee of Record, through consultation with the applicant, is recommending support for a lesser distance, and provided it does not further encroach on the abandoned well.

### **What applications need to comply with new setbacks?**

- Subdivision applications received on or after November 1, 2012.
- Development permits for buildings greater than 47 sq. m. and additions that result in the building being larger than 47 sq. m. received on or after November 1, 2012.

### **What is exempt from setbacks?**

- Any developments for a building that is smaller than 47 sq. m.
- Subdivision lot line adjustments.

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

# Building Permit Requirements

A Building Permit is an important part of the process, as it will ensure that your project is inspected and that it meets or exceeds the standards as prescribed by the Alberta Building Code, and any other relevant documents.

The following is required is required to accompany the building permit application:

- Site Plan which shows the following:
  - Legal description of the property
  - Civic address of the property
  - Identification of all roads abutting the property
  - Building footprint with setbacks from property line
  - Identification of all utility right-of-ways and easements within and abutting the property
  - Location and dimensions of existing buildings including front, rear, and side yard setbacks
  - North arrow, scale, and date of drawing
  - Location of utilities
  - Site Grading (if applicable)
- Building Plans which show the following:
  - Top view of your project
  - Front and side elevations of your project
  - Window and door locations
  - What material will be used for construction
  - Details of how the project will be built
  - Scale, date of drawing, legal and civic address

Please note that these are the minimum requirements, and the Town may require more information/ documents to be able to process your application.
